

Thinnest Transparent Fluoride Sheet with adhesive

We developed the thin and transparent fluoride sheet with adhesive
Special adhesive can adhere to the fluorofilm without surface processing
~The conventional products needed to the plasma processing etc.~

Features

- Can be adhered to nylon* and PP that difficult to adhere
- Less adhesive deposit and recyclable
- Highly transparent
- Non-adhesive ⇒ Easy to remove excrescence
- Superior antiweatherability ⇒ Can be used in outdoor
- Low moisture vapor transmission rate ⇒ Damp-proof film
- Heat-resistant and Chemical-resistant ⇒ resist acid, acryl and organic solution

*except silicone

Line-up (thickness)

Fluorine layer	25 μ	50 μ	100 μ
Total thickness	40 μ	65 μ	115 μ

Features of Fluorine and usage example
